

### **Sealed Bid for Awning/Lean To Screw Press**

FVUC is accepting sealed bids for an Awning/Lean to Covered Extension. The awning is required to support a minimum of 2600 lbs. wet weight of the conveyor. There will be a 6" concrete slab already poured to support the awning. Drawings of the awning and conveyor with specs are available on our website at [www.fvutil.com](http://www.fvutil.com). The awning will need to support the height and design of the conveyor. Direct questions to Keith Spillers-478-825-7701 Ext.217 or Parker Reed- 478-825-7701 Ext 297.

Submit sealed bids before September 27 ,2023, at 2:00 PM at:
